

# PSYCHODRAMA WORKSHOP

📅 28<sup>th</sup> & 29<sup>th</sup> March 2020 | 9 a.m. to 5 p.m.

📍 Beijing, China

Dr. J.L. Moreno's school of psychodrama was developed in the 1920s as a group psychotherapy movement, it is one of the generic names when talking about the range of action methods Moreno and his wife Zerka Moreno developed. Largely dependent on 5 elements – the protagonist, the stage, the auxiliary egos, the director and props, psychodrama leads you to stages where magic is possible.

This workshop is particularly useful for coaches, counsellors, psychologist, psychiatrists and other mental health professionals as well as HR managers and senior leaders from non-clinical settings as education, business and professional training and offers a unique and creative way to explore and solve personal conflicts through 'spontaneity creativity'- an invitation to enable past, present and future life events through enactment rather than talking.

## PIB ZENTRUM, GERMANY
